

NEW YORK ROADS MUST RAISE TO INTERSTATE RATE

WASHINGTON, D. C., Nov. 15.—In its first decision in eight of the federal government under the transportation act to require railroad rates within a state to correspond to the higher levels of interstate tariffs, the interstate commerce commission has ordered the railroads of New York to establish passenger and baggage rates on interstate traffic conforming to advanced interstate schedules. Similar proceedings are pending affecting more than half the states in the union.

By its order of last August, the commission authorized in the New York region an increase of 40 percent in freight rates, 30 percent in passenger rates, except baggage charges and rates on milk and cream and also a surcharge of 10 percent on Pullman accommodations. The New York public service commission granted the freight advance except milk.

Invited Iron
The record shows that the refusal of the state of New York to permit the carriers to increase the rates and rates here in controversy to the extent provided by us is costing the railroads between \$11,000,000 and \$12,000,000 annually. In other words, the annual earnings of the interstate carriers operating in New York are now between \$11,000,000 and \$12,000,000 less than they would be if the central level of rates and fares approved by us had become effective on interstate traffic; and to that extent the federal purpose of congress is defeated by a preferential basis of rates.

Three Popular Majestics

Majestic No. 30
Is the highest type of stationary electric heater ever produced. It is a fixture of more than ordinary beauty.

The grate sets in the wall without fire or chimney. It will fill the room with a grateful, radiant heat.

Dimensions: Front, 16 1/2 inches high, 21 1/2 inches wide, 27 1/2 inches deep. There are two other Majestic Electric Heaters.

Majestic No. 6
An efficient portable heater containing 3 heat units each consuming 600 watts powered by a switch permitting the turning on of one, two or three heating units.

Equipped with 3 feet of heater cord.

Dimensions: Height, 25 1/2 inches; width, 17 inches; depth, 19 inches.

There are three other portable Majestics of this type.

Majestic No. 11
Height, 13 1/2 inches. Diameter 14 1/2 inches.

The largest, most powerful portable electric heater made, consuming only 415 watts. Can be carried from room to room and used wherever there is an electric outlet.

Equipped with 3 feet of heater cord with separable attachment plug.

There are three other portable Majestics of this type.

HUNT'S LIGHTNING OIL

ALFONSO SETS GAY MILITARY PALACE SHOW

Madrid, Spain, Nov. 15.—More color is to be seen in the palace yard of Madrid when king Alfonso is in residence than is to be found in any other part of Spain. The military spectacle alone is brilliant, with the striking uniforms of red and blue uniforms, the dark blue of the artillery men and the red trousers and blue tunics of the infantry as the old and new guards face each other at the salute. With the flags unfurled in the center and the two regimental bands drawn up in circles playing martial airs.

The customary brilliant sunshine makes the fixed bayonets and unadorned sword scabbards the various units carry out the smart military exercises.

Thousands of civilians, mostly visitors to Madrid, gather around the precincts of the palace to watch the spectacle. Numbers of them are from the Spanish provinces, and they bring staid and scarred mixed with the more prosaic dress of the Madrileños form a fit setting to the bright picture.

Further details are added by the itinerant vendors of peanuts, hot buttered rolls and other delicacies loved by the children, who under the eye of their nursemaids in their picturesque costumes of varied hues run hither and thither.

Sometimes the king comes out on the balcony to salute his guard and then all is hushed while he faces the regimental flags and after bowing his head raises his hand to his lips.

The picture is on view for about an hour every morning.

New York Cuts Hands Big Sum.
The record shows that the refusal of the state of New York to permit the carriers to increase the rates and rates here in controversy to the extent provided by us is costing the railroads between \$11,000,000 and \$12,000,000 annually. In other words, the annual earnings of the interstate carriers operating in New York are now between \$11,000,000 and \$12,000,000 less than they would be if the central level of rates and fares approved by us had become effective on interstate traffic; and to that extent the federal purpose of congress is defeated by a preferential basis of rates.

Indian Wife Asks \$250 Month Alimony

Colorado Springs, Colo., Nov. 15.—Naming a white girl of this city as her correspondent, Mrs. Collie De Noya has filed suit for divorce from Wesley De Noya, both full blooded Ojaga Indians. It is believed to be the first suit of its kind in the history of Colorado courts.

The pair were married in Winfield, Kan., in 1917.

In her suit Mrs. De Noya asks for \$250 a month alimony, declaring that her husband's income from valuable all lands in Oklahoma approximates \$1800 per month.

The domestic difficulties of the Indian couple were first brought to public notice during the past summer when Mrs. De Noya is said to have administered a severe drubbing to the correspondent named when she discovered her "rampaging" the redskins.

Man Who Buried Custer Dies After Long Illness

Omaha, Neb., Nov. 15.—Alexander McDowell, who took the first scalp from an Indian that participated in the Custer massacre, and was assisted in digging a grave for Gen. Custer following his death at the hands of the Sioux and the Indians, died at his home here today after a lingering illness.

McDowell was a member of the old Seventh cavalry located at Fort Sheridan and was dispatched from that place to accompany with Buffalo Bill to round up Yellow Neck and Crazy Horse, the Indian chiefs responsible for the massacre. A few years later McDowell was a member of the party that surveyed the Yellowstone National park.

Engineering Council Formed At Washington

Washington, D. C., Nov. 15.—The American engineering council of the American Federation of Engineering Societies has been organized today to promote a national program which its officers said would include establishment of a department of public works, creation of a federal budget system, solution of the transportation problem and conservation of the country's resources.

Washington was tentatively selected as headquarters of the council, which will represent more than thirty engineering societies with a combined membership of more than 100,000.

Herbert Hoover will address the council tonight.

Article 27 Only Bar To Recognition Of Mexico

San Antonio, Texas, Nov. 15.—Article 27 of the Mexican constitution is the only obstacle in the way of establishing and continuing the most friendly relations between the United States and Mexico, according to senator A. H. Hall of New Mexico, who passed through San Antonio today en route to his home after a conference with president-elect Harding at Brownsville, Texas.

Women Fined For Headgear In Court

Chicago, Ill., Nov. 15.—Equal justice for women means that they must wear their hats when in the courtroom, justice of the peace P. F. Aring declared today when he fined two women \$5 each for contempt of court when they refused to remove their hats. The women paid.

Union Leader And State Policeman Killed In Fight

Williamson, W. Va., Nov. 15.—Ernest L. Ripley, of the state police, and William Hatfield, said to be a union organizer, killed each other in a pistol fight at Santa, 35 miles east of here, last night, according to reports received here today by the commander of the troops on duty in the Illinois county coal strike region.

POSTMASTER DENIES MAIL TRAIN ROBBERY REPORTS

Colorado Springs, Colo., Nov. 15.—Denial that an attempt had been made to rob the mail car on Rock Island No. 1, is made by postmaster O. W. Ward of Colorado Springs, who declared that R. N. Phillips, a clerk on the mail car, had checked out correctly upon arrival of the train here. Phillips also declared there was nothing in the story.

It is estimated that 100,000,000 women can vote in the world today.

FIREMEN SAVE PHOENIX MAN FROM DEATH

Phoenix, Ariz., Nov. 15.—The fire department saved the life of Rafael Valencia, an electrician, Valencia, working on a telegraph pole, touched a charged wire and was knocked unconscious, among the wires, he lay with clothing ablaze. The firemen rescued him by using a lower ladder and rope. Valencia was badly burned but physicians said he would live.

THOUGHT HIS TIME HAD COME—DISAPPOINTED

"I never was more surprised in my life than when I took the first dose of Hays' Wonderful Remedy. My stomach trouble had been of eight years' standing, sometimes so bad as to cause convulsions, followed by hemorrhages. I thought my time in this world was short, and believed it the last medicine I would ever take. It is now eight weeks since, and I am feeling better than for many years." It is a simple harmless preparation that removes the distasteful mucus from the intestinal tract and allays inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convulse or money refunded. At all druggists.—Adv.
